ON Convoys – 1941-1945

(U.K.–North America)

Convoy ON 201 through ON 249

The list was kindly provided by Don Kindell, and is the the result of the late Arnold Hague's research.

[Escorts for all ON convoys](#) ➡

This is only a temporary page to show the ships sailing in these convoys until I get time to place each of them inside a form on separate pages. A few of these convoys are already in place on this site (some of which have been added with the help of original convoy documents, like Advance Sailing Telegrams or A 1 forms). In cases where a convoy already exists on its own individual page, I've simply referred to the [Convoy Index](#) - others are in place but may be incomplete and will be updated as time allows.

**The information, which for now has been copied exactly as received, shows:
Name of ship - station number - nationality - tonnage - year built, and in some cases, cargo and destination.**

Some errors may exist - if spotted, these will be noted on the individual pages for each convoy.
